**WHISKEY**

Uisce beatha is Gaelic for "water of life." Whiskey is a distilled spirit made from fermented grain mash. Different grains are used for different varieties, including barley, malted barley, rye, malted rye, wheat and corn.

**TENNESSEE WHISKEY**

Tennessee whiskey is different from bourbon by two key exceptions - it's charcoal filtered before aging in barrels and it has to be distilled in Tennessee.

**JAPANESE WHISKY**

Whisky production began in Japan around 1870, but it's first commercial production wasn't until 1924. Broadly speaking the style of Japanese whisky is most similar to that of Scotch whisky.

**BOURBON**

Bourbon is an American whiskey, like Bulliet or Maker's Mark, made from at least 51% corn and aged at least two years in new charred oak barrels. It must also be distilled the United States, and is strongly associated with Kentucky. A Bourbon that meets the above requirements, has been aged for a minimum of two years, and has no added coloring, flavoring, or other spirit, may be called Straight bourbon.

**SCOTCH**

Scottish whisky is aged in oak casks for at least three years. Depending on the region, the Scotch may have different flavors - those from Islay, pronounced "eye-la," for example, tend to have a smoky, peaty flavor. While those from Speyside, like Macallan, are known for their smooth caramel flavors.
